

PROTECT THE FORESTS

FORESTS ARE THE PLANET'S LUNGS. THEY ABSORB HARMFUL GASES AND PRODUCE A LARGE AMOUNT OF OXYGEN.

THEY ARE ALSO HOME TO MANY ANIMALS.

... AS A RESULT OF SPECIALISED FARMING, THE FORESTRY INDUSTRY, OR POLLUTION-RELATED NATURAL CALAMITIES.

HOWEVER, THEIR SURFACE AREA HAS DECREASED BY HALF IN RECENT YEARS.

HELP US PROTECT THEM BY TAKING A FEW SIMPLE STEPS, BECAUSE IT TAKES OVER 50 YEARS TO REBUILD A FOREST ONCE IT HAS BEEN DESTROYED.

- 1- WRITE OR DRAW ON RECYCLED PAPER.
- 2- CHOOSE PRODUCTS FREE OF PALM OIL.
- 3- BE MINDFUL OF YOUR ENVIRONMENTAL WASTE.

BUT WHAT CAN BE DONE TO PROTECT THEM?
